RD R-404A Rotary Compressor for Ice Making Machine

SCI R-404A rotary compressor (RD) for ice making machines can generate the lowest temperature at ET = -40 °C. It is high efficiency, energy saving 15% when compare to conventional compressor and durable.

Low Temp.
ET = -40 °C

Suitable for Ice making Application

High
Performance

Compare to conventional compressor

■ Specifications of R-404A Fixed Speed Rotary Compressor For Ice making machine

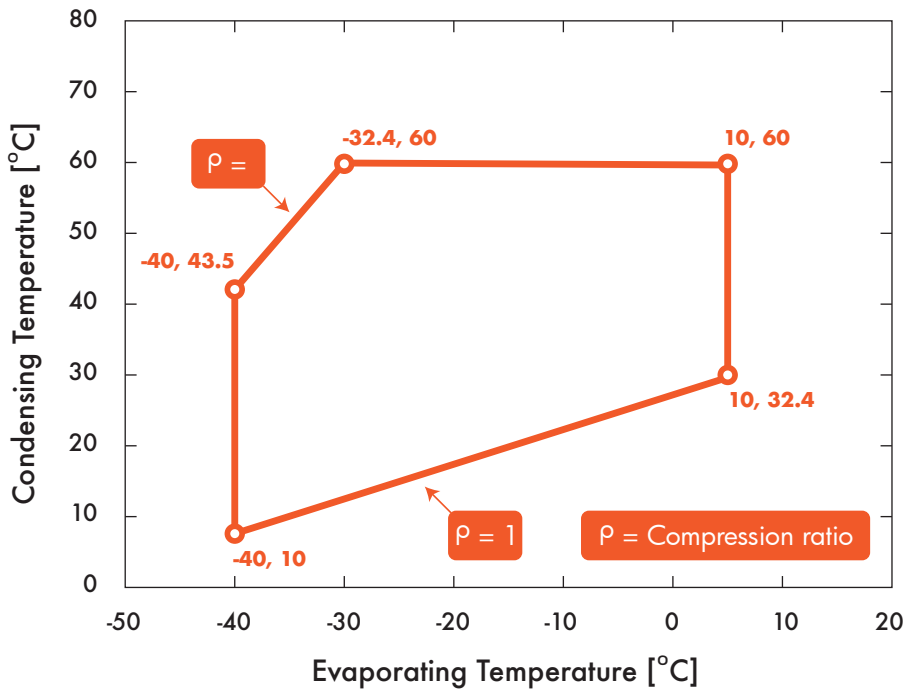

Model	Capacity	Input	COP.	EER
	w	watt	(W/W)	(BTU/Hr.*w)

a) Electrical 50 Hz : 220 - 240 Volt : 1 Phase

RD313VADMTS	2,120	1,550	1.37	4.67
-------------	-------	-------	------	------

Note: 1. Testing Condition : ET = -23.3 °C, CT = 55 °C, SH = 55.3 K, SC = 23 K
